

Information evenings about the final version of the masterplan held during October

8th October, 2008:

On Wednesday 1st and Thursday 2nd October two information evenings took place where the latest and final version of the Masterplan was explained by the team responsible for its development.

The meetings were both well attended and a range of issues were brought up by residents and community representatives from around the Dublin 7 area during the questions and answers session. These issues were discussed at length by the architect, James Mary O' Connor, Grangegorman Development Agency Chief Executive, Gerry Murphy and DIT representative Noel O' Connor.

The next phase in the consultation process will be further statutory and non-statutory consultation on the Draft Strategic Plan. The plan will be on display in several locations around the Dublin 7 area including the GDA offices, where there will also be a model and display boards accompanying it. Several open days and staffed display sessions are to take place on the Draft Strategic Plan during the consultation period and we will be inviting submissions from the public.

All information on the Draft Strategic Plan consultation will be advertised once the schedule is finalised.

If you require any more information please telephone the GDA on 01 867 6082 or e-mail ronan.doyle@ggda.ie.
